Sabah Region AMC

Redemption for re-creation

This year Sabah Region AMC is truly a special one. We had 35 people logging in via Zoom. First time we did it in Zoom, 'there is a meeting in the air'.

Our National President brother HH Fong, in his message stresses the importance of our role in the society, in the market place and FGB members must understand the time and season and know what we ought to do. It is a Transformational Transition and we must continue the baton and for Sabah, you need to strive for more new chapters especially in the East Coast and build more new boats so you can send more fishermen out.

A speaker is invited to deliver a keynote on a very difficult topic 'Redemption For Re-Creation' that has profound meaning hidden in the salvation that God has prepared through his son Jesus Christ. Redemption has a greater purpose which follows with transformation and restoration, the new Creation. If we stay in Christ, greater transformation and restoration are possible to achieve the original intent of God, the utopia condition before the fall of Adam and Eve. But Redemption heals; it heals the sinners like us who are God's supreme creation in his own image and it restores us into the original beings. Redemption also heals the earth and everything in it that was corrupted by men. Our speaker, Pastor Edmund Teo, was very articulate in his deliverance and has made our AMC truly an inspirational one. He revealed the hidden messages and made the incomprehensible comprehensible. SALVATION is HEAVEN in me TODAY and me in HEAVEN TOMORROW. Truly 'Redemption For Re-Creation' has deeper meanings, wider goals and broad objectives where God wants to make Earth more like Heaven and People more like Jesus.
